Sir:

ELECTION

In response to the Office Action mailed March 15, 2000, Paper No. 3, Applicant elects Species I of the invention shown in Figures 1-4 on which claims 1-11, 14-16 and 20 read. Claim 1 has been deemed generic to all species of the invention.

Applicants believe that, in addition to claim 1 being generic, independent claims 14 and 16 are also generic to the three species of the invention. None of the independent claims 1, 14 or 16 recite the elements responsible for the designation of three species. None of the independent claims recite the ledges of species I, the protrusions and openings of species II, or the curved sidewall of species III. Applicants request that claims 14 and 16 also be deemed generic.

Respectfully submitted,
